VIEW SPA MENU
Puerto Vallarta is by far the best-known resort on Mexico’s upper Pacific Coast. The late film director, and sometime resident, John Huston put the town on the map when he filmed Tennessee Williams’s play *The Night of the Iguana* on the outskirts of the village in 1963. Elizabeth Taylor came to keep Richard Burton company during the filming, and the gossip about their romance (both were married at the time, but not to each other) brought this quaint Mexican fishing village, with its cobblestone lanes and whitewashed, red tile-roof houses, to the public’s attention. Before long, travel agents were deluged with queries about Puerto Vallarta.

Despite the growing popularity, every attempt has been made to keep the town’s character and image intact. When you visit, you’ll still see houses with red-tile roofs on palm-covered hills, overlooking glistening blue water. Within 16 km (10 mi) of town are peaceful coves, rushing rivers and roads that curve and twist through jungles of pines and palms.
