# the most sublime point between the desert and the sea

## A cutting-edge resort

Jim Olson, a world-renowned architect, designed the new JW Marriott Los Cabos with a provocative thought, an ambition in order to capture the rich coloured blue found in the Sea of Cortez from every perspective. At the same time, he envisioned horizontal structured frames encompassing the beauty and warm desert hues as well as textures found amongst the deserts of the Baja California Peninsula. The JW Marriott Los Cabos opened its doors in the fall 2015, and it is located at the exclusive

residential master planned development called Puerto Los Cabos where travellers have full access to one of the most sought after golf courses in the world today designed by both Greg Norman and Jack Nicklaus in a joint effort. Lastly, our guests will absolutely enjoy one of the most impeccable marinas worldwide offering yachts, fishing, dolphin swimming and so much more.

# an abundance of activities discovered at every angle

## Magic in Los Cabos

The JW Marriott Los Cabos is conveniently located only 25 minutes from the Los Cabos International Airport. Perfectly situated in the heart of San Jose del Cabo, guests will enjoy the traditional and authentic-Mexican downtown area offering exponential things to do including visiting the Mission Site, browsing an

abundance of international art galleries, learn about the colonial history, enjoy the nightlife, wonderful boutique shops and of course, taste the world famous culinary tourism specialized in Baja California fusions.

## The aquarium of the world

Through our Tamaral Adventure Desk, the new JW Marriott Los Cabos offers to its guest an opportunity to experience the only place in the world where six different types of whale species migrate to the warmer waters found in the Sea of Cortez and Pacific Ocean. By the end of November, and all the way through April, whales trek up to 6,000 miles in their migration rituals in order to give birth to their offspring. Whale watching tours are exhilarating

during this time of year in particular and famous for Jacques Cousteau intrinsic studies of the Sea of Cortez calling it "The Aquarium of the World". In addition, guests always enjoy numerous of additional activities and eco-tourism experiences on ATVs, horseback riding, fishing, snorkelling and scuba diving among many others.
